Not all people think the same about shopping online. Some people think shopping online is great. They think it saves time because they don't spend much time travelling to the shops. And they can stay at home and buy anything they want in a few minutes. They think that they have many choices online. In their view, shopping online will make less cars on the streets so there will be less pollution. On the other hand, some people don't think the same. They don't like shopping online. They say they always have a wrong delivery when they shop online. They don't like to waste time waiting for a delivery. They prefer to try things before buying them.

Although the internet is very useful for us, it has also dangers. Using the internet can be good and bad at the same time. So we should be careful when we use the internet. When you are online, you should remember these rules. Keep your password secret. Don't make friends with people you don't know online. Don't tell people your personal information. When we taste food, our mouths tell us if the food is sweet, salty or spicy. But why do some people like some types of food and not others ? There are many reasons. For example, some people don't like a type of food because they remember being ill after they ate it.

However, it is believed that you can change what you like. We often don't like unusual food because our brain doesn't understand it. So if you want to start liking food that is healthy, such as green vegetables, you should eat it more often. Then your brain will recognise it. You can also train your brain not to like something. For example, many people who stopped putting sugar on things found, after a time, that they didn't like sweet things.

We all agree that eating healthy food means having a healthy life. The food we eat affects our life more than anything else. Most people

have three meals a day, but in fact they don't care about what they should eat for each meal.

These meals must contain everything that our bodies need. They should contain vegetables, fresh fruit, milk and potatoes. Although fast food is delicious and an easy solution for people who work long hours and have no time to cook, it is unhealthy and so expensive. It also causes a lot of dangerous diseases.

To be in a good health, you should eat healthy food and practise sports as they renew our energy and refresh our minds. Also, doctors advise people to drink milk and a lot of water every day.
